

Welcome to the revised **Network Closing Services, Inc.** website. We are a service oriented technology-driven Title Company providing a one-stop-shop for all your Title, Abstract, Settlement, Disbursement, and Real Estate questions. Our office is completely paperless with electronic work flow and real time reporting. We can open and close a file the same day.

We are different from other Title Company's in that we prioritize simple efficiencies. Courteous professional service and technology have secured our position as one of the nation's premier title companies. We want to work with you as a successful team. A part of our successes in the industry is credited to our tools and integration. Our e-tools in the past have been available only to clients through our secure website. We realize the marketplace is extremely competitive, and we want to work together to produce satisfied, repeat clients.

In an effort to help push forward successful transactions, we are starting to release our toolbox to the public through our website. We are also integrating two-way communication over a secure channel into a variety of different production software systems. This will provide a secure way to transmit and receive orders, documents, and status of real estate transactions.

We are excited to work together with you and help in any way that we can. Your feedback is very important to us. Many of our tools have been developed due to your feedback. Let us know what you think. We welcome your suggestions.
